PENSION FUND BOARD APPROVES NEW INTEREST RATE FOR BENEFIT ACCUMULATION ACCOUNTS

(Indianapolis, Indiana, 09/23/2011) In a recent meeting, the Board of Directors of the Pension Fund of the Christian Church approved an interest rate for BA (Benefit Accumulation) account holders. Base rates for BA Accounts are determined each quarter and semi annually for TDRA (Tax Deferred Retirement Accounts). The Board's policy uses a formula which blends current and historical rates as a basis for its rate determination.

Effective October 1, 2011, Benefit Accumulation Accounts will receive a 2.5% rate of return during the fourth quarter of 2011. Benefit Accumulation Accounts will be reviewed again in November, to determine the first quarter 2012 rate.

The Pension Fund Board and Staff continue to be diligent stewards of your resources during this time of heightened volatility. We are mindful of other Pension Boards and secular institutions performance as this review process takes place. The graph shows the rate offered on other comparable investments.

Yield to Maturity
